Clocking in with NFC

Last updated - Jun 02, 2020 at 2:55PM

Requires:

- An NFC capable Android phone, with NFC turned on.
- TimeDock app downloaded and configured.
- Smart-chipped ID cards. Click here to find out how to purchase.

Clocking In/Out

With the *TimeDock* app installed and configured on your phone, as well as NFC turned on, simply place the smart-chip ID card next to the phone. *TimeDock* will detect the chip and automatically clock the employee in/out.
